

PHYSEC GmbH is a solution provider for innovative information security applications for the Internet of Things. As a strongly growing spin-off of the Ruhr-University Bochum we've been awarded with numerous prizes and are collaborating with international research institutes and renowned partners. We are a very dynamic company with flat hierarchies and are currently looking for enthusiastic, creative, and motivated people to join our team at our headquarter in Bochum. Starting from January 1<sup>st</sup>, 2022 we're looking for a full-time

## **(Senior) Product Manager - IoT (m/f/d)**

### **Your Tasks:**

- As a Product Manager, you develop the product vision and strategy collaborating with your colleagues and the C-level. You are responsible for the product roadmap and its implementation.
- You are responsible for the planning, prioritization, and implementation of new product features and solutions constantly having in mind the customer's requirements. You are driving competitive and market analyses, conducting interviews, and working closely with the clients.
- You position the product in the best possible way acting as the interface between development, business development, and marketing and sales departments.
- You strive for excellent processes applying your creativity and experiences to your day-to-day collaboration with your team colleagues and the C-level.

### **Your Profile:**

- You have successfully completed a master's degree in one of the following studies: Electrical Engineering, Information Engineering, (Business) Informatics, or you have similar qualification. Basic commercial knowledge and skills and entrepreneurial thinking are required.
- You have relevant professional experience in product management of digital products. Know-how of Internet-of-Things (IoT) and/or information security is a bonus.
- You can identify and prioritize the product strategy (short- and long-term). You pay attention to market trends and changes. You can assess and understand complex technical solutions and explain them to the clients. You have deep knowledge on and experience in the topics of BMC, BPMN, agile methodology (User Stories), design thinking, and value proposition design.
- Reliability, empathy, and team spirit describe your way of working. You are willing to travel to clients. Business fluent German and English is a must.

### **What We Offer:**

- Flexible working hours and work from home
- Responsibility and the possibility of shaping a young company
- Awesome Team with strong team spirit
- Fair payment, great team events, and free drinks
- Possible development towards a Team Lead position for excellent applicants
- Very good transport connection (Technologiezentrum on the RUB campus)

We particularly want to promote the careers of women in areas in which they are underrepresented. Therefore, we are looking for appropriate applications. Have we caught your attention? Apply with your meaningful CV, your earliest entry date and your salary expectations at [jobs@physec.de](mailto:jobs@physec.de). We're looking forward to your application and will contact you soon. You can find more information under [www.PHYSEC.de](http://www.PHYSEC.de). If you have any further questions, kindly contact **Mario Pietersz** ([mario.pietersz@physec.de](mailto:mario.pietersz@physec.de)).
