

PHYSEC GmbH is a solution provider for innovative information security applications for the Internet of Things. As a strongly growing spin-off of the Ruhr-University Bochum we've been awarded with numerous prizes and are collaborating with international research institutes and renowned partners. We are a very dynamic company with flat hierarchies and are currently looking for enthusiastic, creative, and motivated people to join our team at our headquarter in **Bochum**. Starting from **January 1st, 2022** we're looking for a full-time

Frontend Developer (m/f/d)

Your Tasks:

- In the Scrum team, you will develop our central platform for the company's entire product range and help shape the user interface
- You design new and improve existing functionalities in an Angular SPA
- You will work closely with other departments such as Customer Success to convert customer feedback into representative and intuitive solutions, always keeping an eye on customer benefits
- You are ready to accompany and understand solutions beyond the technical challenge and thus optimize the UX of our products on a conceptual level
- You write automated tests to guarantee high code quality

Your Profile:

- You have completed an apprenticeship as an application developer or a degree in (business) computer science, software engineering, or a comparable qualification
- You have at least 3 years of professional experience in the development of single-page applications
- You have knowledge of TypeScript and ideally of node.js and Angular or comparable frameworks
- You are familiar with Git and Gitlab
- You have experience with agile development
- You are creative and inquisitive about new frameworks, patterns, technologies and would like to develop yourself in a professional environment
- You think outside the box and contribute your skills to an interdisciplinary team
- You are characterized by team spirit and an independent, structured and responsible way of working
- You are fluent in German and English, both spoken and written

What we Offer:

- Flexible working hours and work from home possible
- Responsibility and your own creative options
- Awesome team with strong team spirit
- Great team events and free drinks
- Very good transport connection (Technologiezentrum on the RUB campus)
- Fair payment

We particularly want to promote the careers of women in areas in which they are underrepresented. Therefore, we are looking for appropriate applications. Have we caught your attention? Apply with your meaningful CV, your earliest entry date and your salary expectations at jobs@physec.de.

You can find more information under www.PHYSEC.de. If you have any further questions, kindly contact **Jan Zimmer** (jan.zimmer@physec.de).
